

Demography Seminar

Tuesday, February 28th

12:15pm-1:30pm

8417 Sewell Building

Joanna Pepin
University of Buffalo
Department of
Sociology

Changes in Division of Labor Attitudes During Early Adulthood: 1976 – 2014

Dr. Pepin is a family sociologist and studies inequality as it is woven through couple and family relations. She takes a life course perspective to study inequality related to family composition and ongoing changes in gender attitudes and behaviors.

Cosponsored by the
Family, Fertility, and Households Working Group
