ELPS 620, Iowa State University
Course Title: Social Justice Theory, Research, and Praxis
2018: Invited Guest Lecturer

HDFS 608, Iowa State University
Course Title: Grant Writing for Research
2016 , 2017: Invited Guest Lecturer

Advising

Ph. D.
Emma Flanagan (UW-Madison, HD FS); Mari Haapanen (University of Turku, Social Policy);
Joseph Jean (UW-Madison, CSCS); Abbie Klein (UW-Madison, Psych); Aosai Liu (UW-Madison, HD FS);
Chengxiao Wang (UW-Madison, HD FS, Chair)

Undergraduate Researchers
Genna Garrigan; Ava Hammer; Maya Lesser; Adrian Jauregui; Emma Powers

Methodological Training

– Introduction to Systematic Review and Meta-Analysis
– Measurement (e.g., Item Response Theory)
– Exploratory Factor Analysis (e.g., Principal Component Analysis)
– ANOVA And Regression Analysis (e.g., Logistic and Linear Regression Techniques)
– Mediation Analysis (e.g., Empirical Bootstrapping Methods)
– Handling Missing Data (e.g., NORM Algorithm)
– Confirmatory Factor Analysis
– Power Analysis
– Survival Analysis and Hazard Functions
– Path Analysis & Latent Variable Structural Equation Modeling
– Multilevel Regression Modeling
– Growth Curve Modeling
– Cross-Lagged Panel Modeling

Other Skills

– Software Packages: Stata, MPLUS, SPSS, Rstudio, HLM, ArcGIS Pro & LISREL
– Teaching Software: Canvas, TopHat, Blackboard, & Thinkspace
– Other: LaTeX

Research Experience

2021 - **Postdoctoral Research Fellow**
Institute for Research on Poverty, University of Wisconsin-Madison
- This research involves collaboration with social work faculty Daniel Meyer, Jooyoung Kong, Judi Bartfeld, and Lonnie Berger on child support and child and family policy research projects.

2017 - 2020 **NSF Graduate Research Fellow**
Department of Human Development & Family Studies , College of Human Sciences, Iowa State University
- Fellowship Research – This research was funded by the National Science Foundation. On this project, I consulted a panel of national experts who advised me during my NSF research project. Dr. Greg Duncan provided expertise in economic analysis, poverty, and the use of large datasets; Dr. Paul Spicer had an extensive history of applied research within vulnerable communities; Dr. Jacob Hibel brought expertise in quantitative research methods and educational inequalities for vulnerable children. Findings from this research aimed to influence diverse scientific disciplines including child development, psychology, education, and public health.
- Advised by Heather Rouse & Cassandra Dorius

2015 - 2020 **Graduate Research Assistant**
Department of Human Development & Family Studies , College of Human Sciences, Iowa State University
- Early Risk and School Readiness Research Team (ERSR) – The research team was funded by federal, state, and private sources. Goals included increasing understanding of child, family, and community risks and protective factors; also, identifying Iowa-based community partners and stakeholders to create and utilize Integrated Data Systems to inform evidence-based policies and programs.
- Iowa Integrated Data System Team (Iowa IDS) – The research team was funded by federal, state, and private sources. Functions included engaging with state partners and stakeholders as well as ingesting, profiling, cleaning, fusing, wrangling, analyzing, and visualizing data. This work was conducted to produce findings that inform policy, programs, and practice.
- Advised by Heather Rouse & Cassandra Dorius

2016 - 2018 **Undergraduate Research Advisor**
Department of Human Development & Family Studies , College of Human Sciences, Iowa State University
- ERSR Systematic Review Project – In this position, I led a group of undergraduate students (one of which was a Rosenfeld Intern) in a systematic review of all articles published using a large, nationally representative secondary data set. The students gained an understanding of the structure of a complex data set in this research experience. Additionally, throughout the research experience, students gained competencies in critically evaluating research articles, coding data (i.e., research articles), using a coding system developed by myself and the ERSR research team, synthesizing data, and preparing an academic product.
- Iowa Head Start Honors Project – I co-advised an undergraduate student in an investigation of Iowa Head Start and Public-School Collaboration and Disconnec-

tion. During the project, the student increased skills in data profiling, basic data analysis, and data visualization. The student prepared an academic product that received a best poster award (received by approx. 3 percent of presenters).
