

Reproducibility Workshop

We will delve into a variety of reproducibility topics including minimizing coding error, building replication packages, coding in collaborative research, perspectives on replicability, and AI use in social science research. This workshop is **required for CDE & CDHA students who have not attended** in the past, but CDE/CDHA affiliates and non-affiliates alike with an interest in replicability are welcome to attend. See below for schedule details.

Where: 8411 Sewell Social Science Building

When: Tuesday, Sept 1, 1:30 pm - 4:15 pm

Time	Presenter	Topic
1:30pm	Prof. Christine Schwartz Dept. of Sociology	Principles and Practices of Reproducibility: An Overview
2:00pm	Prof. John Mullahy Dept. of Population Health Sciences	Perspectives on Reproducibility
2:30pm	Light Refreshments	
2:45pm	Elia Boschetti, Meghann Norden-Bright Dept. of Sociology	Graduate Student Perspectives on Reproducibility and RA Work
3:15pm	Russell Dimond Social Science Computing Core	Reproducibility and AI in Social Science Research
4:00pm	Prof. Christine Schwartz	Discussion and Closing Remarks

Join us at the Memorial Union Terrace for the CDE & CDHA Semester Kick-off Social. Drinks (alcoholic and non-alcoholic) and snacks will be provided: 4:30 - 6:00pm
