

SERIAL HOLDINGS OF THE LIBRARY,  
CENTER FOR DEMOGRAPHY AND ECOLOGY

Julie Brewer

CDE Working Paper 87-11

## INTRODUCTION

This serials holdings list supercedes CDE working paper 86-4, SERIAL HOLDINGS OF THE LIBRARY, CENTER FOR DEMOGRAPHY AND ECOLOGY. As it is a list of holdings, not just of titles currently received, the user should look carefully at the citation for years held. Titles that have ceased publication or that are no longer received are clearly marked. The CDE Library shelf list will continue to reflect the most current library holdings and should be consulted to supplement the information below.

Serial entries are arranged alphabetically by title in a word by word sequence. Initialisms, such as BLS, are treated as a word and arranged accordingly. Articles at the beginning of a title are disregarded.

The frequency of availability of each serial is listed whenever possible. Titles issued annually are marked "annual" and may indicate the time of year available if it is known, such as "Annual/Winter." Titles issued less frequently will note the period between volumes, such as "3 years." More frequent publications will indicate the number of issues per year as "2/year" or "3/year," for example.

The call number used in the CDE Library for each citation is also listed for easy access, as well as addresses for ordering information. No attempt has been made to give prices as changes are too frequent.
