

# Demography Seminar

Tuesday, April 18th

12:15pm-1:30pm

8417 Sewell Building

**Hui (Cathy) Liu**  
Michigan State  
University  
Department of Sociology

## **Social Determinants of Dementia: The Role of Marriage**

Dr. Liu is the Director of the Family and Population Health (FPH) Laboratory at Michigan State University. Her research is broadly guided by the aging and life course perspective to study social determinants of population health. Specifically, Dr. Liu has focused on using innovative quantitative methods to develop, test, and promote scientific understanding of marriage and family processes related to population health and well-being over the life course.
